About Me

I am Kaushik Roy, a Ph.D. candidate at the  [Artificial Intelligence Institute, University of South Carolina](#). My research focuses on developing neurosymbolic methods for declarative and process knowledge-infused learning, reasoning, and sequential decision-making, with a particular emphasis on social good applications. My academic journey has taken me from R.V. College of Engineering in Bangalore for my Bachelor's to Indiana University Bloomington for my Master's, and briefly to the University of Texas at Dallas before settling at the University of South Carolina for my doctoral studies. My research interests span machine learning, artificial intelligence, and their application in social good settings. I'm passionate about pushing the boundaries of AI, particularly in areas where it intersects with human understanding and decision-making.

Feel free to contact me by sending me an email or connecting with me on LinkedIn to explore potential collaborations or just to chat about the fascinating world of AI!

 Below are my [Google Scholar](#) statistics, as of September 15th, 2024.
